***Dendrobium prenticei***  
Currently considered by the World Checklist  
of Selected Plant Families to be a homotypic  
synonym of ***Dendrobium lichenastrum***

***Neolehmannia porpax***  
Currently considered by the World Checklist  
of Selected Plant Families to be a homotypic  
synonym of ***Epidendrum porpax***

*Dendrobium bigibbum* var. *album*

*Dendrobium bigibbum* var. *superbum*  
'Blue Coral' × self

*Dendrobium bigibbum* var. *superbum*  
( 'Blue Horizon' × 'Blue' ) × 'Blue Coral'

***Dendrobium monophyllum***

- East coast of Australia from Cooktown to Grafton.
- Wide-spread and common on cliff faces, rocks, upper branches of trees in full sun.
- Needs bright light and humidity. Flowers throughout the year.
- Cultivation – On slab. Copious water in summer but less in winter. In full sun. Fertilize – low nitrogen in warmer months. (September to April – May)

***Dendrobium strebloceras***

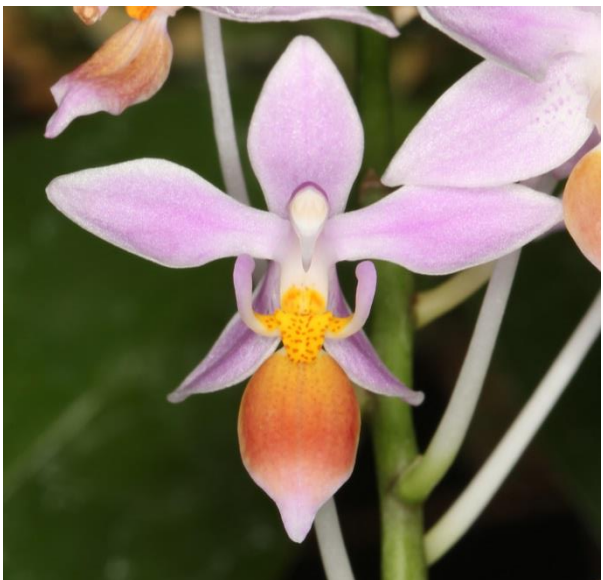

- Moluccas
- Found at low altitudes in rainforest
- Grown under 50% shade in sphagnum moss. Watered only when the top of moss is dry. Low nitrogen fertilizer is used.

*Haraella retrocalla*  
Currently considered by the World Checklist  
of Selected Plant Families to be a homotypic  
synonym of *Gastrochilus retrocallus*

*Miltonia regnellii*

*Phalaenopsis equestris*

***Phalaenopsis amboinensis* var. *flavida***  
Currently considered by the World Checklist  
of Selected Plant Families to be a homotypic  
synonym of ***Phalaenopsis amboinensis***
